What is MoIP?

MoIP is the ultimate mobile dialler for your Symbian smartphone to save you loads of money on your international calls over your WiFi, 3G or GPRS connection.

How do I download MoIP?

From your PC

Go to our MoIP download link <http://www.uaecaller.com/phoneserve/mobile/>

Select your phone type and model and click on the button 'download' to get the application on your PC.

Finally, you can transfer MoIP to your phone if you have your mobile software suit installed on your PC.

Directly on your Symbian phone

Go to our MoIP download link m.winnerip.com on your handset browser.

Select your handset type, model and click on the download button to start the download process as shown in the following pictures:

Step 1: Select your handset type by clicking on the drop-down menu

Step 2: Select your handset model on the next drop-down menu

Step 3: Click on the 'download' button to get your free MoIP app.

How do I install MoIP?

Click on 'Yes' when prompted to 'Install MobileDialer?' to start the installation process.

Press 'Yes' when prompted to install MoIP.

Press the button 'OK'

MoIP will start the installation process.

MoIP has been installed. Click on 'OK' to access MoIP. MoIP will install under the folder 'Installations' or 'Applications' on your Symbian handset. Just click on it to launch it.

The first time you open MoIP you will be prompted to enter an 'Operator Code', please enter **79788**
